[REDACTED]

20 September 1956

Chief, Industrial Division, ORR

Transmittal of a PHS

25X1A9a

1. I am attaching a PHS covering a man I interviewed along with [REDACTED] about five weeks ago. For about a year this man was the Air Force representative on the EIC Subcommittee on Machinery. He conducted himself in a very satisfactory manner on the subcommittee.

2. Partly because of the new "ceiling" problem and our increasing selectivity, I do not believe there is any D/I interest at GS-12. However, the man has a good background in Geography with his MA in this field and he may be useful to some other Division in ORR.
